

### **Catello Scarica, Ph.D.**

graduated in Biological Sciences from the University of Naples, Italy, in 2006. In 2015, he completed his postgraduate studies at the Sapienza University of Rome and earned his PhD. degree in Biology and Molecular Medicine. In his work, he focuses on the treatment and management of infertile couples, manages scientific and research activities conducted in the centres of assisted reproduction, and organises and provides educational courses in the field of reproductive medicine. In laboratory work, he is engaged in all techniques from the semen preparation up to the blastocyst biopsy and embryo transfer. He acquired experience in Quality Control and Quality Assurance within laboratory processes. Since 2021, dr. Scarica is Lab Director and Chief Scientist Officer at the European Hospital in Rome, where he is a co-founder of the New Fertility Group Clinic at the International Centre for Assisted Reproduction and the Spanish AMNIOS In Vitro Project Clinic in Madrid.

From 2020 to 2022, he was Vice President of the Italian Society for Embryology, Research and Reproduction.

Dr. Scarica is the author and co-author of several scientific publications in peer-reviewed professional journals. He has been participating as Speaker and Chairman in many national and international congresses (ESHRE, MSRM, ESHRE course).
